**Appendix A  
Hazardous Materials Storage**

An Operating Permit is required when (1) any hazardous material included in any category listed in tables 2703.1.1(1), 2703.1.1(2), 2703.1.1(3) or 2703.1.1(4) of the *Fire Code of New York State* is manufactured, stored or handled and (2) the quantity of such hazardous material exceeds the quantity listed in the applicable table. This would include any building that is (whole or in part) a Group H occupancy, is a pre-existing, non-conforming hazardous occupancy, or has outdoor use manufacture, and/or storage of materials that exceed the tables for physical and/or health hazard.

This type of Operating Permit will not be issued until an inspection has been performed and establishes to the satisfaction of the Village of Brewster that the requirements of the *Fire Code of New York State* are satisfied. These requirements include the provisions of Chapter 27 of the *Fire Code of New York State* as well as any specialized manufacture, use, storage requirements within Chapters 27-42 of the *Fire Code of New York State*. A previous fire safety inspection cannot suffice for an Operating Permit application inspection. If necessary, tests to verify compliance with the *Fire Code of New York State* must be performed and the reports of such tests must be provided to the Village of Brewster. Tests and reports needed to verify compliance with the Fire Code of New York State vary from product to product. Tests and reports may include:

- Verification of inspection of fire protection systems and emergency alarm systems
- Verification of inspection of storage cylinders, tanks, or containers
- Completion of the Hazardous Materials Reporting Form, as required by General Municipal Law 209-u (available from OFPC at <http://www.dos.state.ny.us/fire/pdfs/forms/hm209u.pdf>)
- Presentation of Material Safety Data Sheets for the product(s) requiring permits
- Affidavits that the regulated party is in conformance with other State Agencies (Environmental Conservation, Health, Labor)

**OPERATING PERMIT APPLICATION**

**Appendices**

(Page 2 of 5)

**Appendix B**

**Hazardous processes and activities**

Commercial or industrial operations producing combustible dust - An Operating Permit is required when a condition or process meets the scoping requirements of Chapter 13 of the *Fire Code of New York State* and is part of a commercial or industrial operation. Chapter 13 references several different standards, based on the products producing dust. The reference standards shall be used and compliance with such standards shall be submitted prior to the issuance of an Operating Permit.

Fruit and Crop Ripening - An Operating Permit is required when a fruit or crop ripening operation meets the scoping requirements of Chapter 16 of the *Fire Code of New York State*. The operating permit will not be issued unless an inspection and/or documented testing demonstrates to the satisfaction of the Village of Brewster that the ethylene generators meet the requirements of Section 1606 of the *Fire Code of New York State* and that the appropriate safeguards are in place.

Waste Handling - An Operating Permit is required when waste materials that are considered hazardous are reclaimed, recycled, collected or otherwise handled at the Premises. Examples of uses that trigger the need for this Operating Permit include wrecking yards, auto dismantling facilities, junk yards, hazardous materials recycling facilities, and the like. An inspection must be performed prior to the issuance of this type of Operating Permit; such inspection must confirm compliance with any applicable sections of the *Fire Code of New York State* including the general fire safety practices in Chapter 3 of the *Fire Code of New York State*.

Other Hazardous Processes and Activities - An Operating Permit is required for any other process or activity determined by the Village of Brewster to be hazardous. Such processes and activities include, but are not necessarily limited to, the following: The Village of Brewster will determine which processes and activities are considered hazardous and will trigger the need to obtain an Operating Permit, and those processes and activities may be listed here. Such hazardous processes and activities should be administered consistent with local conditions. Processes and activities that commonly trigger the need to obtain an Operating Permit include use of tents and membrane structures, airports, motor fuel stations, semiconductor facilities, and any other specialized hazard that is specifically regulated in Chapters 11-26 of the *Fire Code of New York State*.

## OPERATING PERMIT APPLICATION

### Appendices

(Page 3 of 5)

### Appendix C Pyrotechnics in Assembly Occupancies

An Operating Permit is required for use of pyrotechnic devices in any assembly occupancy. *[Although Part 1203, section 1203(g)(1)(iii), requires an operating permit for use of pyrotechnic devices only in assembly occupancies, section 1203 (g)(1)(v) provides that an operating permit must be required for buildings whose use or occupancy is determined by the Village of Brewster to pose a substantial potential hazard to public safety. See Appendix E for further information.]*

An inspection must be completed prior to the issuance of this type Operating Permit. The inspection must confirm (1) that all fire protection and life safety features are inspected and have current maintenance within the timeframes set by Section 901 of the *Fire Code of New York State*, (2) the existence and adequacy of fire safety plans and emergency preparedness, and (3) that the means of egress are properly maintained, that interior finishes are appropriate, and that occupancy calculations are correct. [The required tests and reports should be consistent with the permit procedures found within NFPA 1126. The section in NFPA 1126 regarding permits and the annex material provide guidance for the Village of Brewster on what to request. An operating permit should be required for each show or group of shows, and the Premises should be made available for inspection prior to each event.]

**IMPORTANT:** Please note that section 280.00 of the Penal Law provides that in the absence of a permit issued by the “permit authority” under section 405.00 of the Penal Law, it is unlawful to offer or expose for sale, to sell or furnish, or to possess, use, explode or cause to explode, any “fireworks” or “dangerous fireworks.” **Most pyrotechnic devices fall within the definition of “fireworks” or “dangerous fireworks” under section 270.00 of the Penal Law.**

Section 405.00 of the Penal Law provides that the “permit authority” of a state park, county park, city, village or town may grant a permit for the public display of fireworks by municipalities, fair associations, amusement parks or organizations of individuals. For a fireworks display within a state park, the term “permit authority” means the state agency having custody and control of the park. For a fireworks display within a county park, the term “permit authority” means the county park commission or such other agency as may have jurisdiction, control and/or operation of the parks or parkways within which any fireworks are to be displayed. For a fireworks display within a city, the term “permit authority” means the duly constituted licensing agency of such city or, in the absence of such agency, an officer designated for the purpose by the legislative body of the city. For a fireworks display within a village, the term “permit authority” means an officer designated for the purpose by the board of trustees of the village. For a fireworks display within the territory of a town outside of villages, the term “permit authority” means an officer designated for the purpose by the town board of the town.

**AN OPERATING PERMIT FOR THE USE OF PYROTECHNIC DEVICES IN AN ASSEMBLY OCCUPANCY IS NOT A PENAL LAW SECTION 405.00 PERMIT. OBTAINING AN OPERATING PERMIT FOR THE USE OF PYROTECHNIC DEVICES IN AN ASSEMBLY OCCUPANCY DOES NOT OBIVATE THE NEED TO OBTAIN A PENAL LAW SECTION 405.00 PERMIT. AN OPERATING PERMIT FOR USE OF PYROTECHNIC DEVICES IN AN ASSEMBLY OCCUPANCY DOES NOT MAKE LEGAL ANY ACT PROHIBITED BY PENAL LAW SECTION 270.00.**

**Appendix D**

**Places of Public Assembly with an occupant load of 50 or more persons**

An Operating Permit is required for any place of public assembly that has an occupant load of at least 50 persons. This Operating Permit is required to ensure that life safety and fire protection systems are maintained to the applicable requirements.

Duration of operating permits: Operating permits shall be issued for such period of time, not to exceed one year in the case of any operating permit issued for an area of public assembly and not to exceed three years in any other case, as shall be determined by the Code Enforcement Officer to be consistent with local conditions. The effective period of each operating permit shall be specified in the operating permit. An operating permit may be reissued or renewed upon application to the Code Enforcement Officer, payment of the applicable fee and approval of such application by the Code Enforcement Officer.

An inspection must be completed prior to the issuance of this type Operating Permit. The inspection (and any tests and reports which may be required) must confirm (1) that all fire protection and life safety features are inspected and have current maintenance within the timeframes set by Section 901 of the *Fire Code of New York State*, (2) the existence and adequacy of fire safety plans and emergency preparedness, and (3) that the means of egress are properly maintained, that interior finishes are appropriate, and that occupancy calculations are correct.

**Appendix E**

**Uses and Occupancy Classifications determined by the Village of Brewster  
to pose a substantial potential hazard to public safety**

Operating permits required: Operating permits shall be required for conducting the activities or using the categories of buildings listed below:

- a. Manufacturing, storing or handling hazardous materials in quantities exceeding those listed in Tables 2703.1.1(1), 2703.1.1(2), 2703.1.1(3) or 2703.1.1(4) in the publication entitled "Fire Code of New York State" and incorporated by reference in 19 NYCRR 1225.1;
- b. Hazardous processes and activities, including but not limited to commercial and industrial operations which produce combustible dust as a by-product, fruit and crop ripening, and waste handling;
- c. Use of pyrotechnic devices in assembly occupancies;
- d. Buildings containing one or more areas of public assembly with an occupant load of 50 persons or more; and
- e. Buildings whose use or occupancy classification may pose a substantial potential hazard to public safety, as determined by resolution adopted by the Village of Brewster Board of Trustees.

Any person who proposes to undertake any activity or to operate any type of building listed in this subsection shall be required to obtain an operating permit prior to commencing such activity or operation.

Revocation or suspension of operating permits. If the Code Enforcement Officer determines that any activity or building for which an operating permit was issued does not comply with any applicable provision of the Uniform Code, such operating permit shall be revoked or suspended.

A fee schedule shall be established by resolution of the Village of Brewster Board of Trustees.

Such fee schedule may thereafter be amended from time to time by like resolution. The fee schedule will be on file with the Clerk of the Village of Brewster. The fees set forth in, or determined in accordance with, such fee schedule or amended fee schedule shall be charged and collected for the submission of applications; the issuance of building permits, amended building permits, renewed building permits, certificates of occupancy, certificates of compliance, temporary certificates, operating permits, fire safety and property maintenance inspections; and other actions of the Code Enforcement Officer described in or contemplated by Chapter 103 of the Code of the Village of Brewster.
