The Board is requesting an extra recorder and tape for backup.

## II. OLD BUSINESS:

No new or revised applications received by October 12, 2006 which is ten days prior to this meeting and so there is nothing on the \_\_\_\_\_ docket to be done.

**Mark Anderson:** Does 50 Main Street go back to “square one” now that the deal seems to have changed? I don’t know what the status of 50 Main Street is.

The Planning Board does not have a complete application before us. It is also not our concern at this point in time.

## III. OTHER BUSINESS

### Item 1. New Inquiries

Members of the public who have projects that they are contemplating to be presented to the Planning Board tonight for discussion.

**Chairperson Piccini** asks if there is anyone present who would like to present a project this evening.

No members of the public have anything or a project that they would like to bring or discuss before the Board.

### Item 2. Conference Review

Discussion whether conference was worth attending, what members learned, training session stemming from the conference.

**Attorney Kropkowski:** according to the NYCOM attorneys, effective January 1, 2007 “x” hours of training is now mandated for both Zoning and Planning Board members.

**Chairperson Piccini:** The conference just attended does not count for this calendar year. In the future it appears as if, if you go more than 4 hours in any calendar year your local municipality can decide to let it rollover filling your requirement for the following year.

**Attorney Kropkowski** informs the Board that there is “opt out” legislation so that training can be waived. However, a resolution is required and would have to be passed in November.

**All Board members present agree** that the classes/training were informative, gave valuable information which each member felt they needed and that both Zoning and Planning members should be mandated to attend the conference each year. It was also mentioned that in the future attendance at the training site may not be required as more training is made available on-line, i.e., Municipal Insurance Reciprocal.org website where course(s) and exam can be taken on line.

Training at local sites are also available. Need to find out criteria and qualifications requirements.

**Item 3. Training Sessions**

November 2, 2006 date at 7:00 p.m.-9:00 p.m. has been established as the first “training session” for each Planning board member to bring information received at the conference to review and share. The “training sessions” are not meetings. They can be held at the
